Subject: Microsoft Settlement

Microsoft has revolutionized the computer field and the practical use of the Internet by millions of people . It is the Jewel of the American capitalistic system . I have always felt that Mr.. Gates should be given the highest civilian award offered by our government . The aggressive attack on Microsoft by the Clinton Administration was a disservice to the computer world and society itself .

I know that my entire family including my grandchildren , my children , my wife , and myself - all avid computer users - are indebted to Microsoft for making the computer world and The Informational Age available to us in such a practicable manner .

We hope that the DOJ will allow Microsoft to proceed freely in its unending goal of ever improving our access to the world of computers , software , and the Internet .

Thank you Microsoft - and Mr.. Gates - for making the retirement years of this 78 year old physician years filled with excitement and learning .

Sincerely ,
William Charles Caccamise Sr , MD
